By William T. O'Brien : Top 3 Differentials in Radiology: A Case Review magnetic resonance imaging of bone marrow a review part ii rebecca kessler do 1 scot campbell md 2 david wang do 2 and liem bui mansfield md 1 breast implant ruptures are a recognised complication of a breast implant it can be intracapsular when confined by the surrounding fibrous capsule or extracapsular Top 3 Differentials in Radiology: A Case Review:

2 of 2 review helpful Probably my favorite case book but there is one caution and a couple of areas to improve on By Radiology guy This is absolutely a brilliantly composed case book The strengths of this book lie in below features 1 Key image finding written on top of the answer page is a brilliant idea This is because this forces you to organize this

newly gained knowledge by thinking ok the 3 different Praise for this book Innovative the descriptions are accurate and concise exactly what the examiner wants to hear it would be difficult to find a better high yield high quality textbook covering every subsection of the radiology oral board examination JAMAyExtremely useful This review book is not only rewarding but also a resource radiologists can continue to refer to throughout their careers Academ
